Dear Ms. Gearhart:

Thank you for your letter regarding the use of forced child labor to harvest cotton in Uzbekistan. Our Work Place Code of Conduct prohibits use of forced and child labor in the production of our merchandise. Each vendor is required to sign and acknowledge our Code, and compliance with the Code is a covenant in our Purchase Order Terms and Conditions and all our license agreements. Additionally, we have an independent third party CSR audit firm conduct pre-production and periodic audits of each apparel factory that produces our merchandise for compliance with our Code.

We have signed the Responsible Sourcing Network's pledge that we will not knowingly use Uzbekistan cotton. We have requested that our vendors and mills adhere to that policy. Additionally, we are an active member of the National Retail Federation and the USA-ITA, which are working to resolve this issue on behalf of our entire industry. As you know, the challenges of tracing cotton sources are significant, and will require industry action to overcome.

Thank you for your interest and inquiry regarding this important issue.

Sincerely

Freya Brier
Senior Vice President and General Counsel
